Lake O'Dowd under slow no-wake zone

Temporary no-wake zone protects shoreline

Shakopee, Minn. – The City of Shakopee has declared an emergency slow no-wake for Lake O'Dowd effective June 20.

With the above normal rains, Lake O'Dowd is experiencing high water levels and shoreline erosion. To protect the shoreline, Mayor Brad Tabke and Louisville Town Board Chair John Weckman have enacted the temporary slow no-wake zone for up to 30 days.

The slow no-wake will be lifted once water body has fallen to a lower level set for three consecutive days.

Scott County Sheriff's Office will be responsible for enforcement of the slow no-wake zone.
